

Trees Organic  
COFFEE & ROASTING HOUSE

## Operations Manual

### **Wireless Internet**

All Trees Organic Cafes must provide free, unlimited wireless high speed internet access for customers.

Each café must purchase, install and maintain the appropriate equipment needed.

The following points constitute additional requirements:

- Wireless router must be programmable that allows for access through the Trees Organic “Splash Page” (DDWRT capable)
- No access codes or timeouts will be permitted to be implemented
- Router must be installed in a location that enables good signal strength throughout the entire dining area. Signal repeaters may be used if necessary.
