

## From Trees to the cup...

Since 1996 Trees Organic Coffee Company has been doing things differently. This BC owned and operated café chain is truly unique; we believe in keeping coffee traditional.

We at Trees spend the time to carefully select each bean used in our cafés; taking great pride in our extensive coffee bean selection from around the world, which include organic, shade grown, bird friendly, hand picked and fair trade beans. However our beans are only the beginning of our dedication to serving the perfect cup.

In order to enhance our great coffee beans we carefully roast all our coffees in-house. By roasting the coffee ourselves in small batches, we can ensure the freshest, highest quality product and gauge the flavour to suit any palette.

Our customers not only enjoy the best, freshest coffee, but by buying organic & fair trade, they are making a responsible choice that has a positive effect on the environment & society.

Trees Organic Coffee invites you to participate in the ancient romance of coffee, the way it was meant to be.

*We carry organic,  
fair trade, hand picked,  
shade grown and  
bird friendly coffees,  
freshly roasted  
in small batches.*
