Cheesecake + Organic Coffee

Since 1996 Trees Cheesecake + Organic Coffee has been doing things differently. This BC owned and operated café is truly unique.

We at Trees spend the time to carefully select each bean used in our café; taking great pride in our extensive coffee bean selection from around the world, which are 100% organic, shade grown, bird friendly, hand picked and fair trade. However, our beans are only the beginning of our dedication to serving the perfect cup. In order to enhance our great coffee beans; we carefully roast all our coffee in-house.

Our customers not only enjoy the best, freshest coffee, but by buying Organic & Fair trade, they are making a responsible choice that has a positive effect on the environment and in each community.

Trees Cheesecake + Organic Coffee invites you to participate in the ancient romance of coffee, the way it was meant to be.
